

Input for the CC/CEM update process (form V1.2)

This editable pdf form is provided to assist in the supply of comments and suggestions. Please use as many forms as needed. The boxes will scroll for larger amounts of text - or you may prefer to submit an additional document (please make this a simple text document). For the most effective consideration it is important that responses include a suggestion for how the issue(s) being raised could be addressed.

Please rate severity as:-

1. Significant - Impact the correct or efficient operation of the item.
2. Moderate - Normally clarifications or proposed improvements to the item which are unlikely to impact other areas.
3. Minor - Does not affect the correct operation or interpretation of the item. These are usually syntax and format errors which have no effect on the meaning or interpretation of the item.
