Position Statement

collaborative PP for Database Management Systems, Version 1.0

Supporting Document – Evaluation Activities for the collaborative PP
for Database Management Systems, Version 1.0

STATEMENT: The Federal Office for Information Security supports the collaborative PP for Database Management Systems (DBMS cPP), Version 1.0 and the Supporting Document – Evaluation Activities for the collaborative PP for Database Management Systems (DBMS SD), Version 1.0.

PURPOSE: The intent of this Position Statement is to make it publicly known that the Federal Office for Information Security

- recognises the need for evaluated products that are suitable to address the security problem defined in the DBMS cPP;
- acknowledges that the SPD appropriately scopes the security problem to be addressed by such software,
- will accept applications for product certifications conform to the DBMS cPP and we will use the DBMS SD as a refinement of the CEM.

SCOPE: The Federal Office for Information Security will revisit its position during the CCRA approval/endorsement process. After certification of the cPP and approval of the SD the position statement might be updated and changed into an endorsement statement.
