Conformance claim	EAL2
PP conformance	None
Evaluation Facility	Japan Electronics and Information Technology Industries Association, Information Technology security center (JEITA ITSC)
Description of TOE	<p>The TOE includes a single piece of hardware which encrypts/decrypts image data (hereinafter called "the Scrambler Board"). The Scramble Board is used for mitigating risks that image data, which remains in a digital copier after a copy is made on a sheet of paper (hereinafter called "the User's Residual Document Data"), may be disclosed.</p> <p>The TOE also includes software which has two functions: one function encrypts image data of paper document when the image data is converted into an electronic form, and the other function clears entire actual data area where the image data, written on a HDD, exists.</p> <p>The TOE is an optional function to Toshiba TEC Corporation's digital copier, "e-STUDIO 550/650/810".</p>
