

# Korean National Protection Profile for Network Device V1.0

---

## Certificate Effectiveness Maintenance Report

**Certification No : KECS-PP-0714-2016**

**April 2017**

IT Security Certification Center

## **1. TOE**

Korean National Protection Profile for Network Device V1.0

## **2. Date of Application**

6 April 2017

## **3. Date of Approving**

21 April 2017

## **4. Overview**

The TOE is Korean National Protection Profile for Network Device V1.0 [2].

The change to the certified Protection Profile has no effect on assurance. Therefore, the assurance as outlined in the Certification Report KECS-PP-0714-2016 is maintained for the changed Protection Profile.

This report is an addendum to Certification Report KECS-PP-0714-2016.

## **5. Changes to TOE**

Assignment operation of FDP\_IFC.2.1 has been corrected. The maintained TOE is Korean National Protection Profile for Network Device V1.1 [3].

## **6. Assessment**

The security impact of the changes to the Protection Profile is minor outlined in the document Assurance Continuity [1].

## **7. Conclusion**

Consideration of the nature of the change leads to the conclusion that it is classified as a minor change and that certificate maintenance is the correct path to continuity of assurance.

Therefore, IT Security Certification Center agrees that the assurance as outlined in the Certification Report [4] is maintained for this version of the TOE.
