

AISEP ENDORSEMENT STATEMENT
Full Drive Encryption – Encryption Engine collaborative
Protection Profile
Version 1.0, dated 26 January 2015

1. The Australasian Certification Authority (ACA) formally endorses the *Full Drive Encryption (FDE)– Encryption Engine (EE) collaborative Protection Profile (cPP) Version 1.0, dated 26 January 2015*
2. The ACA recognizes a need for evaluated devices that are suitable for the use cases identified in the FDE EE cPP. The ACA believes that the FDE EE cPP meets the intent of the ESR and considers the Security Problem Definition and resulting Security Functional Requirements appropriate for the intended use cases.
3. The ACA reserves the right to revisit its position at any stage throughout the lifecycle of the FDE EE cPP.
